Cardiac Sodium Channel Nav1.5 & Interacting Proteins: Roles in Cardiac Channelopathies

Hugues Abriel, M.D., Ph.D.
Professor & Director, Department of Clinical Research
Director, NCCR-TransCure
University of Bern, Switzerland

Hugues Abriel studied life sciences at the Swiss Federal Institute of Technology in Zurich (ETHZ, 1989). He continued his education to become a physician (MD, 1994) and received a PhD degree in Physiology from the University of Lausanne in Switzerland (1995). Currently, he is exploring the genetic, molecular and cellular bases of cardiac arrhythmias.

Monday, May 2, 4:30 p.m.
Whitaker Hall, Rm. 218, Danforth Campus
Coffee & Dessert will be served
