Cardiac Bioelectricity & Arrhythmia Center (CBAC) Seminar:

Myocardial Fibrosis in Sudden Death

João A.C. Lima, M.D.
Professor of Medicine & Radiology
Director of Cardiovascular Imaging
Johns Hopkins Hospital

Dr. João Lima’s pioneering work in cardiac imaging using advanced MRI, CT and echocardiography has led to noninvasive techniques for predicting cardiovascular disease and calculating its extent, as well as measuring the effectiveness of modern cardiac treatments. He holds numerous patents on devices and methods for cardiac imaging and image-guided therapies.

Monday, March 28, 4:30 p.m.
Whitaker Hall, Rm. 218, Danforth Campus

Coffee & Dessert will be served
