

Karin Sipido is Professor of Medicine and Head of Experimental Cardiology at the KU Leuven, the University of Leuven, Belgium. She holds an MD degree, trained in Internal Medicine and Cardiology and holds a PhD in Physiology.

Her academic research focuses on cellular mechanisms of heart failure and arrhythmias. With collaborators in cardiac imaging and clinical electrophysiology, the research receives a broader clinical perspective.

She was an editorial board member of several leading cardiovascular journals; she was Associate Editor of the *European Heart Journal* and Editor-in-Chief of *Cardiovascular Research* 2013-2017. She was elected member of the Academia Europaea, Fellow of the European Society of Cardiology, Fellow of the American Heart Association and of the International Society for Heart Research.

She assumed several tasks within the European Society of Cardiology. She was founding member and President of the Alliance for Biomedical Research Europe 2013-2015. Currently she chairs the Scientific Panel for Health under the provision of the European Commission H2020 program. Within the KU Leuven, she chairs the Council for Research Strategy.
